

New Brunswick RESIDENTIAL ENERGY EFFICIENCY PROGRAM

The Efficiency New Brunswick's *Residential Energy Efficiency Program* offers incentives to homeowners who purchase advanced solid-fuel burning appliances to make their homes more energy efficient. Appliances purchased must meet certain requirements. Those requirements can be summarized as follows:

APPLIANCE TYPE	REQUIREMENTS
Freestanding wood stoves	Emissions ≤ 4.5 g/h as per EPA or CSAB415.1 with efficiency $\geq 75\%$
Wood fireplace inserts	Emissions ≤ 4.5 g/h as per EPA or CSAB415.1 with efficiency $\geq 75\%$
Zero-clearance wood fireplaces	Emissions ≤ 4.5 g/h as per EPA or CSAB415.1 with efficiency $\geq 75\%$
Freestanding pellet stoves	Emissions ≤ 4.5 g/h as per EPA or CSAB415.1 with efficiency $\geq 75\%$
Wood furnaces	Emissions ≤ 4.5 g/h as per EPA or ≤ 0.40 g/MJ as per CSAB415.1 with efficiency $\geq 75\%$
Pellet furnaces	Emissions ≤ 4.5 g/h as per EPA or ≤ 0.40 g/MJ as per CSAB415.1 with efficiency $\geq 75\%$

Rebates offered under the program for the renovation of an existing home* can be summarized as follows for each appliance type:

APPLIANCE TYPE	REBATE
Freestanding wood stoves	\$500
Wood fireplace inserts	\$500
Zero-clearance wood fireplaces	\$500
Freestanding pellet stoves	\$500
Wood furnaces	\$500
Pellet furnaces	\$500

*Other rebates apply for new constructions. Visit the Energy NB's web site for more details.

Qualifying models:

The following FLAME models qualify for the Fuel Substitution Pilot Program:

Wood Stoves

XTD 1.5
NXT-I

Wood Fireplace

Monaco

Wood Insert

XTD 1.5-I

Pellet Stove

FP-45

Program deadline:

Although the program is intended to be permanent, it is suggested that you register sooner than later in order to start saving money. Some conditions must be met, such as the need to have a Pre-Upgrade Assessment performed by an accredited Efficiency NB Service Provider. This service is not free, but its cost is minimal in relation to the long-term energy savings that you can expect.

For more information about the program, you may visit the Efficiency NB's web site at:

<http://www.energycnb.ca/residential/reep-existinghomes.html>

For your records, a certificate of qualification can be sent to you upon request.
